We started business without no 3rd party and which we never invited any other people .. All these you invited your lawyer was just rubbish because i don't know your lawyer is and your lawyer saying now i don't understand . We did business together based on trust and which we have told you what really happen and how to make head way to successful business and you want you how we started to just Interupt into business . These will bring more delay and argument and which extra charges will always be counted by any delay. Now the delay already start from tod company was to make delivery since yesterday. Which per day cost \$34USD because you comply with these so that you can get your packages .. I will not just come to you to ask you for mor Important issues that is possible to bring packages to your address ..I want you to understand all these won't work out because we already paid for the shipping charges and tax fee also with expect refund because we also run at lost at the moment which we don't know what and why you making issues complicated .. Listen we also have our company standard lawyer that is regist against crime Protection .. So don't think we just here without no proof of working permit in business moreover we registered company in world with valid document that stand for our business understand again let make settlement and cooperation so that we won't both fall in lost ..
